

Project

"Professional training for stage and film lighting and sound technicians"

2020-1-PL01-KA202-081664

Scheme of the training for vocational instructors, vocational teachers , who train in the field of light and sound in the music and film industry

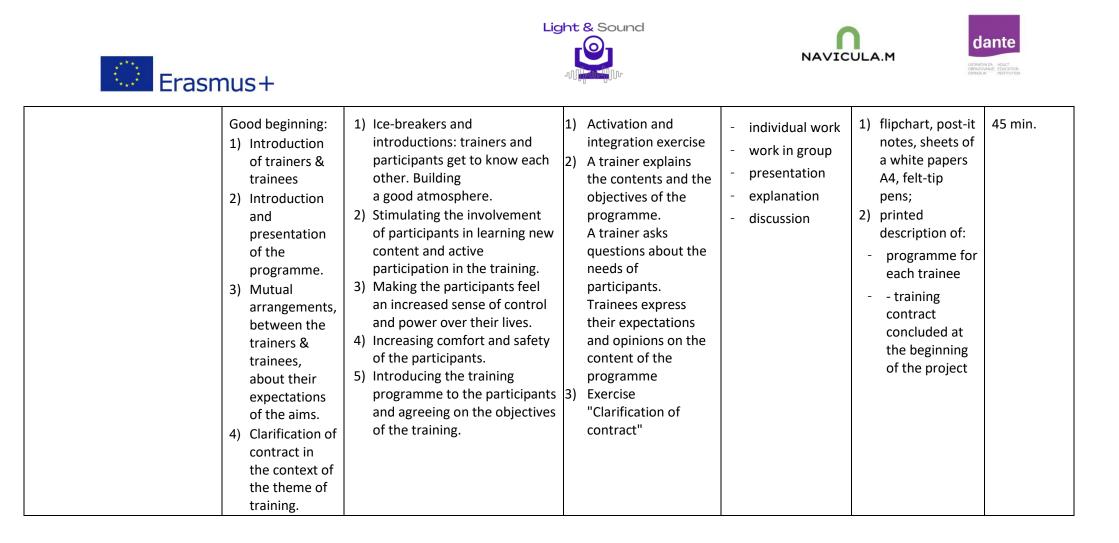

General level	Module I: Introductory module						
		Main purpose: Preparation for training					
	Learning situation	1: Motivation in the learning proces	S				
	Content	Objective	Activity	Method	Material	Time	

 Motivation - basic information Motivation process and motivating factors in the learning process Methods of shaping behavior Self-motivation and increasing self-confidence Principles of group motivation Motivating factors for learning according to. The group process Expand their knowledge on: the main principles of vocational training, - learning process, Main principles of vocational training The process of professional learning: experience reflection 	 The vocational teacher, vocational instructor explains the theoretical part of the course, using case studies, practical exercises, referring to the experience of 	 short theoretical explanation with PowerPoint discussion work in small groups brainstorming in big group case studies presentation the effects of group work 	 PowerPoint presentation, laptop and projector for a trainer, flipchart, felt- tip pens written instructions to a case studies written instructions to the teamwork 	1 days 1 st day: 4 x 45 min. 2 nd day: 4x 45 min. 3 rd day: 4 x 45 min.
 conclusion verification 10) Adaptation of ways of motivation to individual needs of course participants 	participants.		with list of questions to reflection	

11) 10) Developing interest in modern technologies use in film			
and music production			

General level	Module II:						
	Health and safety rules on film set, music stage						
	Main purpose : Safety during practice and future work

					I
 Good beginning: 1) Introduction of trainers & trainees 2) Introduction and presentation of the programme. 3) Mutual arrangements, between the trainers & trainees, about their expectations of the aims. 4) Clarification of contract in the context of the theme of training. 5) Measuring the motivations and the level of the IT knowledge of participants 	 Ice-breakers and introductions: trainers and participants get to know each other. Building a good atmosphere. Stimulating the involvement of participants in learning new content and active participation in the training. Making the participants feel an increased sense of control and power over their lives. Increasing comfort and feeling of safety of the participants. Introducing the training programme to the participants and agreeing on the objectives of the training. 	 Activation and integration exercise A trainer explains the contents and the objectives of the programme. Trainer asks questions about the needs of participants. Trainer prepares with the group a scale about the different computer skills and every participant can decide which is the appropriate level for him/her Trainees express their expectations and opinions on the content of the programme Exercise "Clarification of contract" Trainer adjusts the pace of teaching to the participants' work pace 	 individual work, work in group, presentation, explanation, discussion, 	 flipchart, post-it notes, sheets of a white papers A4, felt-tip pens; printed description of: programme for each trainee training contract concluded at the beginning of the project 	1 day: 1 x 30 min.

 Security protection The role of the H&S coordinator on set and stage A detailed security plan for all shooting work, Supervision of compliance and execution of the plan, Coordination for difficult shooting, Health and safety coordination for scene security, Health and safety for the construction of stage structures, Light and sound connections, Health and safety of electrical issues 	 isafety ing work and music vill gain cipants' and music A health and safety specialist explains the theoretical issues Demonstrates to the entire group how to use occupational safety tips The pace of teaching 	 work with PC or laptop Practical exercises in developing film set laptop an participan film set laptop an projector cards, stunt security security security specialist cards, printed training effects, special or OSH effects special or OSH manuals such as flipchart, markers of knife and other dangerous objects, -Practical exercises in developing 	5 x 45 min. r
