Boosting adult learners' literacy: get to know a new approach and activities to do it! Find out about the LifeComp Cards Collection, the Citizens Xelerator Model and Kit and how to use them.

LifeComp Cards Collection is a tool developed by the Citizens Xelerator project aiming to support organizations and professionals working with adult learners in:

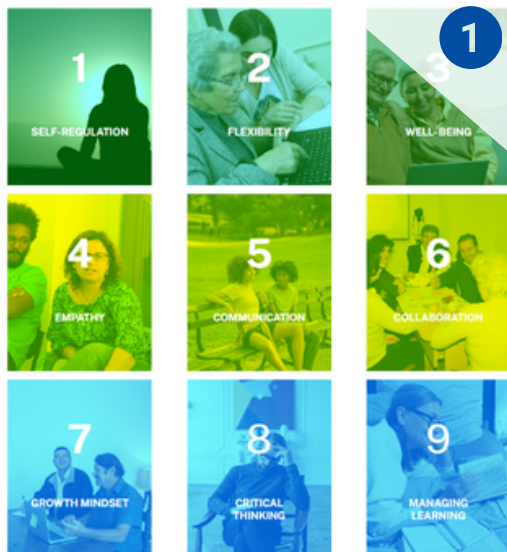

- The identification of their personal, social and learning competences;
- The development of activities fostering the validation and recognition of adults' personal, social and learning competences, acquired in formal, informal and non-formal settings.

The LifeComp Cards Collection was built based on the LifeComp Framework and is composed of 9 cards, organized in 3 main areas covering in a total of 9 topics:

- **Personal** - self-regulation, flexibility, well-being;
- **Social** - empathy, communication, collaboration;
- **Learning** - growth mindset, critical thinking, managing learning.

How to use LifeComp Cards?

1. SELECT THE COMPETENCE(S)

The LifeComp Cards Collection is comprised of nine cards, each one addressing one competence. You can either work the nine competences or a single competence depending on your learning objectives.

2. READ THE DESCRIPTION

Each card includes a short and understandable description of the competence, comprised of key words.

3. PRESENT THE QUESTIONS FOR SELF-REFLECTION

Read the questions for self-reflection that will help adult learners to decide if they have that competence.

4. IMPLEMENT THE ACTIVITY

Each card presents activities that can be implemented in groups or individually.

5. PRESENT THE EXAMPLES

Present the real life examples where adult learners can use the competence(s), guiding them on how they can use the given competence in various aspects of their lives.
