ABOUT THE PROJECT

The R(AE)L Inclusion project has been dedicated to empowering adult educators with the tools and knowledge necessary to support adults with learning and behavioral difficulties and disabilities. Through a focus on inclusion and individualization, the project aims to enhance the quality and availability of adult education programs.

By offering tailored training to educators, we ensure that the unique needs of individuals with disabilities are met with sensitivity, expertise, and respect. This project has involved partners from multiple countries, working collaboratively to design and implement innovative training modules.
